## SKILLS

### PROGRAMMING

Over 5000 lines:

- C++ • Python • Python-Django
- Object-Oriented-Design
- HTML • CSS • JavaScript
- SQL

Familiar:

- Java • ASP.NET MVC • Sitecore
- SDL Tridion

## COURSEWORK

### GRADUATE

Machine Learning  
Data Structure  
Software Engineering  
Cloud Computing  
Computer Networks

### ONLINE COURSES

Simplilearn:- Python Development Suite  
Udemy:- Intro To ML for Data Science  
GeeksForGeeks:- DSA Course  
Udemy:- JavaScript  
Udemy:- C-sharp  
Udemy:- ASP.NET MVC

## EXPERIENCE

### COGNIZANT | PROGRAMMER ANALYST TRAINEE

Aug 2020 - Feb 2021 | Chennai, India

- I use to go through Project-specific functional aspects of the client's requirement and assist in creating documentation about client-specific applications, project-specific processes, workflows, and making changes to the website as per client requirement.

### COGNIZANT | INTERNSHIP

Feb 2020 - June 2020 | Bangalore, India

- Going through business requirement document and work as per BRD and develop the applications.
- Worked on ASP.NET MVC and created a web application that allows Teachers and Students to connect and share their resources on a regular basis digitally.

## PROJECTS

### PYTHON-DJANGO ECOMMERCE SITE

Dec 2020 - Dec 2020

<https://github.com/tarunrpmahar/Python-Django/tree/main/Ecommerce>

- Created a web application using python-Django framework where we store items with functionality of adding to cart, deleting from cart and searching item.

### TEACHER STUDENT CONNECT WEB APPLICATION

April 2020-May 2020

<https://github.com/tarunrpmahar/ASP.NET>

- An Interactive UI platform that allows the Teachers and Students to digitally connect. Developed the Web Application using ASP.NET MVC.
- Creating an online Repository that contains a collection of learning and teaching materials flowing from Teachers and Students on a regular basis.

### BOOKSTORE WEB APPLICATION

May 2019 - June 2019

- Created a web application using python-Django framework where I have stored books with the functionality of adding to cart, removing from cart, searching the books, and purchasing interface link using Paypal.
- Used bootstrap for creating an interactive interface for user.
